

Rules for the Long Shot Contest

Optional contest - to be held after the Woods Walk is completed.

All participants enter \$1 into the hat.

The long shot target will be whatever the Black Powder shooters have been using for the winter season. Sometimes, it is a redcoat soldier, sometimes a Buffalo, or large deer, etc.

Observe all NRA Safety Rules during the match.

No handling of guns until called to the firing line.

Starting at the 100 yard marker, each participant fires 1 shot offhand at the target.

Those who miss are out of the contest.

Those with a hit are still in the running.

Move back 10 yards and repeat. (When you can't back up any more, then restart at 100 yards.)

Continue the process until you have a winner.

Last man standing wins all of the money in the hat.

Provide the name of the winner, the distance, and the amount of the award to the Match Director for record purposes.
